Law & Water Column, *American Water Works Association Journal*, April 2009

Attorneys in Brownstein's Water Group author the monthly "Law & Water" column in the American Water Works Association Journal. Each column provides valuable legal insight in the form of case summaries of interest to water utilities across the U.S.

April's column discusses the "water supply crisis," and if these water-related problems are due to a lack of supply, or to insufficient water management.
